### A Movement That Will Make Cleveland's Election a Certainty.

Date.

[From This Morning's World.] The Western Democratic Campaign Fund total now amounts to \$26,671.21, a sum which the coming week is likely to increase materially. Few politicians can remember a Presidential year in which interest in the

Presidential year in which interest in the campaign has been so backward. In spite of this spathy and the cholera scare the fund has made a gratifying advance each day.

How interested the general public is in this great educational movement is proved by the fact that 1,740 persons subscribed to the fund last week through THE WORLD. Many others contributed through the hundreds of newspapers scattered throughout the Union that are allied with THE WORLD in pushing the great cause of tariff reform.

Nineteen Clubs Trying to Win the Ten

The value of the Western Democratic Campaign Fund as an important factor in the coming Presidential election has been as the coming Presidential election has been falles, at which such men as Aldrich, Alliston and the patty set forth by all the prominent leaders of the Democratic party. There are a number of States in the West which have for States in the West with have for States for Cleve-land and Stevenson it is purposed to wage a vigorous, agressive and concerted campaign of education. To defray the expenses of such a campaign the present fund was inaught rated by The Workin and has since been indowed the state election with the state election for the train in the Grand Central West and the State election for the train in the Grand Central West and the State election for the train in the Grand Central West and the

awarded are well worth a desperate effort.

Political clubs, too, are beginning to realize that men's votes are not changed by sky-rockets and roman candles, and that it is ar wiser to expend available money in carrying in home tariff-reform truths to those who want to be converted than to march about the streets in a biaze of red fire.

In the struggle for the prize banners nine-teen clubs are now entered. The order in which they stand and the amounts contributed or secured by each are as follows:
